PROFILE

I am a recent graduate with a degree in computer science, looking for a work-study or employment opportunity. With strong technical skills and an unwavering passion for new technologies, I am determined to put my knowledge into practice and bring significant value to your company. My academic career has allowed me to develop analytical rigor, problem-solving skills, and a spirit of innovation. I am ready to take on ambitious challenges and fully invest myself in a dynamic professional environment where I can continue to evolve and contribute significantly to the success of the team.
